# U.S. Merchandise Import from UNITED KINGDOM by HS Code at 10 digit level - Year-to-date ending in June, 2009 (Ordered in HS10 Code) 

Prepared for: Simon Pak

```
Note:
1. This report contains, for the country or country-customs combination, frequency, value, quantity, market shares, average unit value, and the ratio of unit value to r
    for every HS code at 10 digit level.
2. If an HS code does not have a defined unit of measure, then quantity, market share in quantity, average unit value, and the ratio of unit value to median price
    are set to zero.
3. Definitions:
    Frequency = Card count during the period
    Market Share in Value (%) =100*(Value for a country)/(Total Value for US-All Countries)
    Market Share in Quantity (%) = 100*(Quantity for a country)/(Total Quantity for US-All Countries)
    AvererageUnit Value = (Value)/(Quantity)
    Ratio of Unit Value to Median Price = (Average Unit Value)/(Median Price for US-All Countries)
4. Import Value and Quantity are based on District of Entry data, not District of Unlading.
```
